

MATHEW KENNEDY-BREWER

Junior Software Developer | Backend-Focused Full Stack

Dundee, NY 14837 | (315) 418-7657 | mathewkennedy.dev@proton.me | github.com/Mystery2099

PROFESSIONAL SUMMARY

I am an Application Software Development student with hands-on IT support experience and a backend-focused full-stack background. I build and troubleshoot software with Java, Kotlin, C#, TypeScript, PHP, Svelte/SvelteKit, Linux, and Git. I am especially interested in backend systems, developer tooling, platform engineering, and practical uses of AI coding agents.

TECHNICAL SKILLS

Languages: Java, Kotlin, C#, TypeScript, JavaScript, Python, PHP, SQL

Web: Svelte, SvelteKit, HTML, CSS, Tailwind CSS, REST API integration

Developer Tools: Git, Linux, Docker, PowerShell, pnpm, Bun, AI-assisted development and coding agents

Systems Support: Windows, macOS, and Linux troubleshooting; networking; account access; device deployment

Cybersecurity: Network traffic analysis, web application security testing, log analysis, scanning and reconnaissance

EXPERIENCE

IT Help Desk Technician - Alfred State College, Alfred, NY *2023 - Present (year-round since 2025)*

- Diagnose and resolve Windows, networking, software, hardware, account-access, printer, and peripheral issues for students and staff
- Configure loaner laptops and end-user devices; document failures and escalate network or infrastructure issues with clear findings
- Guide users through fixes and coordinate cross-team tickets to keep unresolved issues moving

Housekeeper - Glenora Wine Cellars, Dundee, NY *Seasonal, 2022 - 2024*

- Prepared guest rooms and shared spaces for daily turnover while meeting time-sensitive quality standards across three seasons

CYBERSECURITY ACHIEVEMENTS

- Advanced from the 91st to 98th national percentile in National Cyber League Individual Games, placing 206th of 7,010 in Spring 2026 with 2,855 of 3,000 points
- Helped the team earn a perfect 3,000-point score and place 17th of 3,634 in the Spring 2026 National Cyber League Team Game

EDUCATION

B.Tech., Application Software Development - Alfred State College *August 2023 - Present*

Relevant coursework: application development and the program's complete web development sequence

A.A.S., Information Technology - Alfred State College *May 2025*

Computer Technology - Finger Lakes Technical & Career Center (BOCES) *August 2021 - June 2023*

Coursework: HTML, CSS, PHP, JavaScript, C#, Unity, PC hardware, troubleshooting, and networking
